

ENVIRONMENTAL POLICY

ABLE-SPEED SDN BHD (Able-Speed) will work in harmony with the environment. To achieve the above task, we committed ourselves to:

- comply with all applicable environmental rules, regulations, and legal requirements.
- protect the environment, including prevention of pollution and optimize resources to reduce the generation of waste.
- continually improve our understanding and practices to promote our environmental commitment through training, activities, and regular audits.
- communicate our environmental practices to our employees, suppliers, and customers.

In line with our environmental commitments, Able-Speed and its suppliers shall:

- set environmental objectives and targets which shall be periodically reviewed and revised, when necessary, to reflect changing conditions and information;
- understand their environmental impacts and comply with local, national, and relevant international environmental legislation;
- have procedures or guidelines in handling and managing restricted or hazardous substances;
- properly manage waste generated in the premise;
- obtain, maintain and keep all required environmental permits and registrations;
- endeavour to minimize waste wherever practicable; by eliminating, reducing, recycling, re-using, or substituting;
- reduce the environmental impact of its products and manufacture;
- give clear responsibilities for environmental management of the facilities to member of the management team.
